DETAILED ACTION

Claim Rejections - 35 USC § 112

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 87-206 rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. Claims 87, 106, 125, 161, the claimed limitations after "function to" are insufficient structure in the claims to perform the function. How do the digital circuits can perform all the recited functions?

Claim Rejections - 35 USC § 101

2. 35 U.S.C. 101 reads as follows:

Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement thereof, may obtain a patent therefor, subject to the conditions and requirements of this title.

Claims 87-206 are rejected under U.S.C. 101 because the claimed invention is directed to non-statutory subject matter. Claims 87, 106, 125, 161, the computer program is not claimed on the computer readable medium. The limitations after "a computer medium" do not define any structural and functional interrelationships between the computer program and the computer readable medium, which permit the computer program's functionality to be realized.
